“*The Bibliography of British and Irish History is an essential resource for anyone interested in the history of Britain and Ireland, or the British World.*

In an age of information overload, the Bibliography is the definitive, curated record of what's been written about the past, and who's writing History today.

No student, lecturer or researcher should be without the wonderful BBIH.”

Professor Sir David Cannadine, Dodge Professor of History, Princeton University,
General Editor of the *Oxford Dictionary of National Biography*,
and President of the British Academy.

BIBLIOGRAPHY OF BRITISH AND IRISH HISTORY

The Bibliography (BBIH) is the most comprehensive and authoritative guide to what's been published on British and Irish history, covering the Roman period to the present day.

The *Bibliography of British and Irish History (BBIH)* grew out of the Royal Historical Society Bibliography of British and Irish History. Since its publication in 2010, BBIH has superseded the RHS Bibliography as an essential tool for researchers working on British and Irish history at every level and throughout the world.

Compiled and edited by specialist bibliographers and historians at the University of London, BBIH is a joint research and publishing project of the UK's Royal Historical Society and Institute of Historical Research, and its publisher Brepols.

AIMS AND SCOPE

The *Bibliography of British and Irish History Online* provides bibliographic data on historical writing dealing with the British Isles, and with the British empire and Commonwealth, during all periods for which written documentation is available - from 55BC to the present.

In addition to 600,000+ bibliographical records, BBIH offers links to online catalogues to help you find the items that it lists in research libraries in Britain and Ireland. It also provides links to the full text where available.

The bibliography is a guide to the work of historians - it does not contain original sources, unless they have been edited and republished by historians (except for a selection of key sources published before 1901).

The Bibliography lists books, articles in books and articles in journals. Over 750 journals and series are regularly checked. Material is included irrespective of place or language of publication. The BBIH is a vital tool for any university library and is invaluable for all levels of academic research, from undergraduate dissertations to the most advanced scholarship.

THE GLOBAL REACH OF THE BIBLIOGRAPHY

Given the global reach of British and Irish history, the Bibliography provides extensive coverage of scholarly content relating to Britain, Ireland, the British empire and Commonwealth and the British world. Using data visualization tools, we mapped the number of resources available onto a global frame using the figures from an update in 2019 and the place names listed.

The expansion of the British empire explains the significant number of resources concerning North America, the Indian Subcontinent, Australia, South Africa. However, other less obvious areas also feature prominently. There are nearly 2,500 records of books, chapters and articles relating to Russia, over 1,500 to China, and nearly 1000 to Japan.

Visit the website of the Institute of Historical Research for more details on the global scope of the Bibliography:

REVIEWS

The *Bibliography of British and Irish History* is, quite simply, indispensable. A superb resource—well maintained, regularly updated, and with the very best search tools—this is the indispensable ‘go to’ for all serious scholarship on British and Irish History.

Professor Mark Ormrod, University of York, UK

The Bibliography is the first resource I recommend, and rely on for myself, when starting research on the history of British Atlantic. Searches reveal the latest work on the Atlantic World, and the British in colonial America—including scholarly articles, book chapters, monographs and reviews.

Dr Jordan Landes, Curator, Friends Historical Library, Swarthmore College, Pennsylvania

It's hard to imagine historical research and teaching without BBIH at my side. The Bibliography offers a great deal not only to historians of Britain and Ireland, for it also reflects an expansive view of what students and researchers need to know about this country's European and global entanglement.

Professor Miri Rubin, Queen Mary University of London, UK

BBIH is an invaluable, long-established, hand-curated resource. It not only provides powerful tools to help students and scholars find relevant secondary content, but also makes possible large-scale, quantitative and qualitative surveys of whole fields of historical study.

Professor Joanna Innes, University of Oxford, UK
